# ELVA DMS

WORKSHOP SOLUTION FOR FLEET MANAGEMENT

Microsoft Dynamics

Elva DMS improves important aspects of your organization's fleet management by fleet maintenance scheduling, repair shop management, parts inventory management, waybill and many more related issues.

A flexible platform – **Microsoft Dynamics NAV** - gives Elva DMS the ability to adapt the solution to meet the unique requirements of fleet management and to gain maximum return on investment.

Updated and easy accessible information about your organization's business processes is vital for making precise and informed decisions to boost productivity. It positively affects both your fleet's and organization's principles of operation.

Based on Microsoft Dynamics NAV — Tailored for company's fleet management

ELVA DMS

- Service Management

WORKSHOP SOLUTION FOR FLEET MANAGEMENT

Elva DMS suits your company if you have considered at least one of the following aspects:

- Easy access to fleet repair & maintenance history
- Increase workshop organization efficiency
- Control parts inventory and ordering
- Quick data analysis of any aspect of the fleet
- Control and improve fleet management workflow

- Precise fleet's recourse planning
- Waybill processing and planning
- Easy-to-use, convenient and adaptable ERP solution for fleet management
- Schedule & track maintenance done by outside companies

Main benefits ensured by Elva DMS:

Controlled fleet operations
Be aware of all the operations regarding your fleet management. Control your fleet assets and realize the asset management as needed.

Data integration
Organize all your information with one flexible and easy-to-use software solution. Service history, inventory, fixed assets, employee information and much more of functionality in one platform.

Improved workflow
Manage operational processes at a whole new level. Reduce double data entry and reduce paper work. Assign mechanic or outside service companies to a specific job based on workload and reduce workforce downtime.

Instant reporting
Elva DMS delivers the data so you can analyze your data quickly, accurately and make informed decisions.

Efficiency tracking
Monitor the efficiency of your internal processes; measures how consistent are parts and services vendors, pricing, delivery times, costs efficiency and much more.

Financial data integration
Elva DMS ensures all of ERP system advantages. It integrates all of fleet data and company's financial information into one system.
